Total Retail Solution

CONTENTS

ABOUT SANKI

Located in the Beijing Economic-Technological Development Area, Beijing Sanki Petroleum Technology Co.,Ltd is a service provider that provides comprehensive energy solutions to customers by focusing on the research and development of energy application scenarios such as oil, gas, electricity and hydrogen. The company's business focuses on various scenarios of energy end use, from planning and construction of energy consumption stations to equipment manufacturing, from installation and operation and maintenance to intelligent control and management, from construction of the entire station to value-added services, the company plows into the industry value chain, forming a one-stop industry solutions. SANKI has the core technology of refueling equipment and nearly 20 years of experience in the energy industry, the company's customers cover national oil companies and private energy stations in Asia, Europe, North America, Africa, Australia and other countries. From traditional energy to new energy, from equipment manufacturing to intelligent manufacturing and control, three surplus technology adhere to independent innovation, quality win, technical innovation to help upgrade the energy structure, is always committed to providing customers around the world with intelligent, safe, reliable, energy-saving integrated energy solutions.

PRIME SK-52

Features

- Modular designed platform
- H-frame based customerized design
- 15 inch touch screen with multimedia and advertising
- Built-in promotional applications (sweepstakes, freebies and points for gifts)
- Multiple connectivity(CL,RS485, RJ45, LON)
- Multiple protocols supported
- SANKI Paykit module supports multiple payment methods (IC Card, Bank Card, RFID, NFC, QR Code, Mobile App)
- Support Integration of mainstream payment module
- Vapor recovery system with smart control
- Multiple product selections
- 2/4 fueling positions
- 2/4 hoses all-in-one design

CNG Dispenser

Features

- IC/ID card option
- Two side operated
- Preset and Fill up support
- Accurate flow meter
- Embedded ARM processor with high upgradability
- Enhanced anti-interference and anti-electrostatic
- Supports international standard IFSF protocol.
- Easy integrated with hybrid fuel stations

LNG Dispenser

Features

- IC/ID card option
- Two side operated
- Preset and Fill up support
- Accurate flow meter
- Embedded ARM processor with high upgradability
- Enhanced anti-interference and anti-electrostatic
- Supports international standard IFSF protocol.
- Easy integrated with hybrid fuel stations

Hydrogen Dispenser

Features

- IC/ID card option
- Imported original meters
- Breakaway/Emergency Switch
- Explosion-proof design, safe and stable working
- Auto power-off transaction protection
- Multiple protocols supported

LPG Dispenser

Features

- IC/ID card option
- Single/Dual hose option
- Built in gas separator
- Standard flow rate

Gas

SK-AdBlue Skid
AdBlue Mobile Station

Features

- Compact design for easy installation and maintenance
- Supports various AdBlue dispenser options
- Supports internal or external AdBlue dispenser
- Constant temperature function, optional air conditioner
- Equipped with upload pump system

SK-MS
Customized Mini Skid

Features

- Capacity from 1,000 to 15,000 liters
- Automation system with FMS / ATG
- Complete gas station functions
- UL 142 , UL 2085 Listed

SK-FS311
Mobile Fuel Skid 20ft/40ft

Features

- 1/2 product chambers
- 1/2 fuel dispensers
- UL 142 , UL 2085 Listed
- Capacity from 30,000 to 68,000 liters
- Anti-Corrosive Tank
- Empty Fuel Skid can be stacked
- Highly integrated design options
  - ATG
  - Fuel Management System
  - Generator
  - Loading pump
  - Pressure relieving device
  - Overfill prevention system
 - Multiple options and customized features

SF Double Wall Tank

Features

- UL certificated
- Robot welding
- Automatic production line
- Leak detection system option

SINOPEC, CNPC, CNOOC and SINOCHEM

Electric House

Density Floater

Water Floater

Wireless Probe Pack

For Double-Layer Pipeline   For Double-Layer Tank   For Dispenser Sump

SK-SS200B
ATG Smart Console

Features

- Monitor tank level and other parameters in real time
- 8 inch touch screen with friendly GUI
- Automatic alarm for abnormal conditions
- Support for International Units of Measurement
- Support multiple languages
- Integrated scheduling function
- Automatically generate delivery reports
- Programmable leak detection

Options

- Leak sensor
- SMS report function
- Support GPRS/LAN network and TCP/IP protocol

SK-SP300
ATG Magnetostrictive Probe

Features

- Real-time data transmission
- Measuring fuel level and water level simultaneously
- Five temperature sensors equipped
- Class 0 intrinsic safety
- Digital signal transition, high anti-interruption ability
- Stainless steel (316L) with customizable length
- High precision as 0.5mm and resolution as 0.01mm
- Maximum communication distance 1200m
- IP67 protection grade
- ATEX approved

SK-Leak Detection
Optic Liquid Leak Sensor

Features

- Compact structure and artistic appearance
- Easy to install and maintain
- Explosion-proof design, safe and reliable
- Connectivity up to12 sensors
- Support Float switch leak sensor
- Support switch volume leak sensor
- Support RS485 interface leak sensor
- Identify fuel and water leakage
- Leak sensor fault detection
- LED alarm indicators
- Connectivity with host computer
- Support to integrate with Tank Gauging system

SK-TC
Tank Calibration

Features

- Rapid calibration: Completed one tank in 2 hours
- Flowmeter accuracy 0.3%
- Calibration without waiting time
  - During loading work
  - During unloading work

Fleet

SK-FMS
Server/Cloud Based FMS

- Simple and practical design for convenient operation
- USB interface based communication control unit
- Easy installation and maintenance
- Tank gauge with real-time monitoring
- Automatic collection of shift information

Gas station management
- Pump & Tank real-time status monitoring, tank alarm
- Fueling transaction real-time reception and display
- Real-time total sales accounting for current shift
- Price adjustment
- Shift processing
- Sales details inquiry
- Operator sales statistics inquiry
- Delivery record inquiry

Retail center management

- IC card making
- Secret key management
- Fleet customer management
- Reports management
- Inquiry & statistics

IC card online self-service
- Fueling bills self inquiry
- IC card information inquiry
- Suspend card online
- Password self changing

NFC Tap & Pay

- Tap and pay with customer cell phone
- Easy-to-operate handheld POS for attendant
- One handheld POS for multiple dispensers

Card Pay

- Best choice for self-service
- EMV/Member Card supported
- Encrypted and Rapid Transaction Service

QR Code Pay

- Free App for customers
- Membership QR code is your wallet
- Transaction and membership messag

OneStep Pay

- Station services All-in-One
- Services first, payment on departure
- Open to third party payment software

CyberPOS Pro

Features

Simple and Intelligent operation

- Support multiple payment methods to complete the transaction in one operation
- 20-minute learning curve gets new cashiers up and running faster
- Consistent GUI across multiple sites for maximum staffing flexibility
- Smart forecourt integration to quickly alert forecourt issues

Flexible and Diverse Sales systems

- Flexible membership discount options, including discounts by payment type, car wash, and loyalty-based discount
- Integrate with a variety of food service options, from pre-packaged food menus, self-ordering touchscreens and made-to-order options.
- Automatic calculation of the best deal price for an item, independent of the cashier

Smart and secure management.

- The searchable log records the cashier's keystrokes, which can be viewed and printed in the system.
- Cashier Over/Under report shows over/under cashier statistics for all cashiers
- The Remote Manager suite enables you to control, configure and monitor sites from any Internet-enabled device

Vapor Recovery Vacuum Pump

Features

- Automatic rotating speed adjustment
- High accuracy Air/Liquid recovery ratio
- Inverter motor equipped
- Compact and isolation structure
- Anti-wear, long lifespan

- Explosion-proof certificate: Ex d II A T3 Gb/Ex C II Gb
- Protection class: IP55
- Ambient temperature: -40°C ~ 50°C
- Ambient pressure: 80kPa ~ 106kPa
- Maximum flow rate: 80LPM
- Maximum vacuum degree: 0.05MPa
- Voltage: 36V DC
- Power: 45W

↙
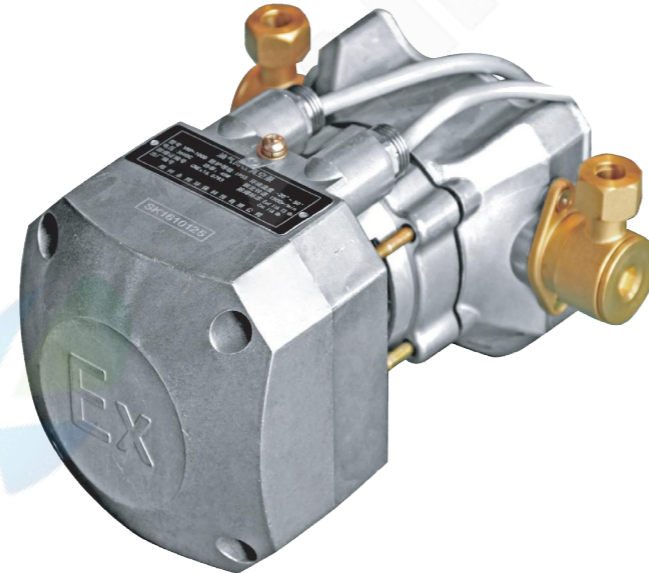

Gear Pump GP-50 Series

Features

- Two stage filtering system
- Two stage gas /air separation
- Reliable and durable
- 12 million liter life cycle verified
- OIML approval and qualified certificated

↘
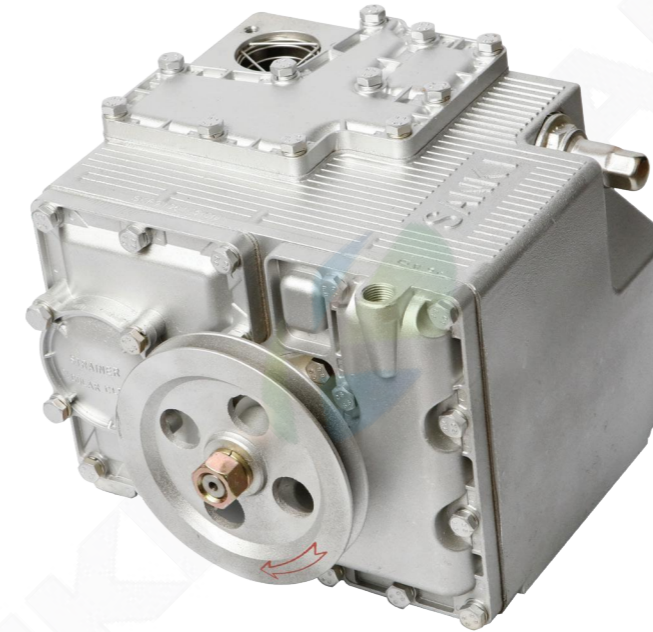

Electronic Calculator

Features

- ARM 32 bit CPU
- Dispenser measuring and IC card payment integrate
- FMEA analysis
- Industry level design
- Big memory
- High speed
- Flexible upgradeability

↙
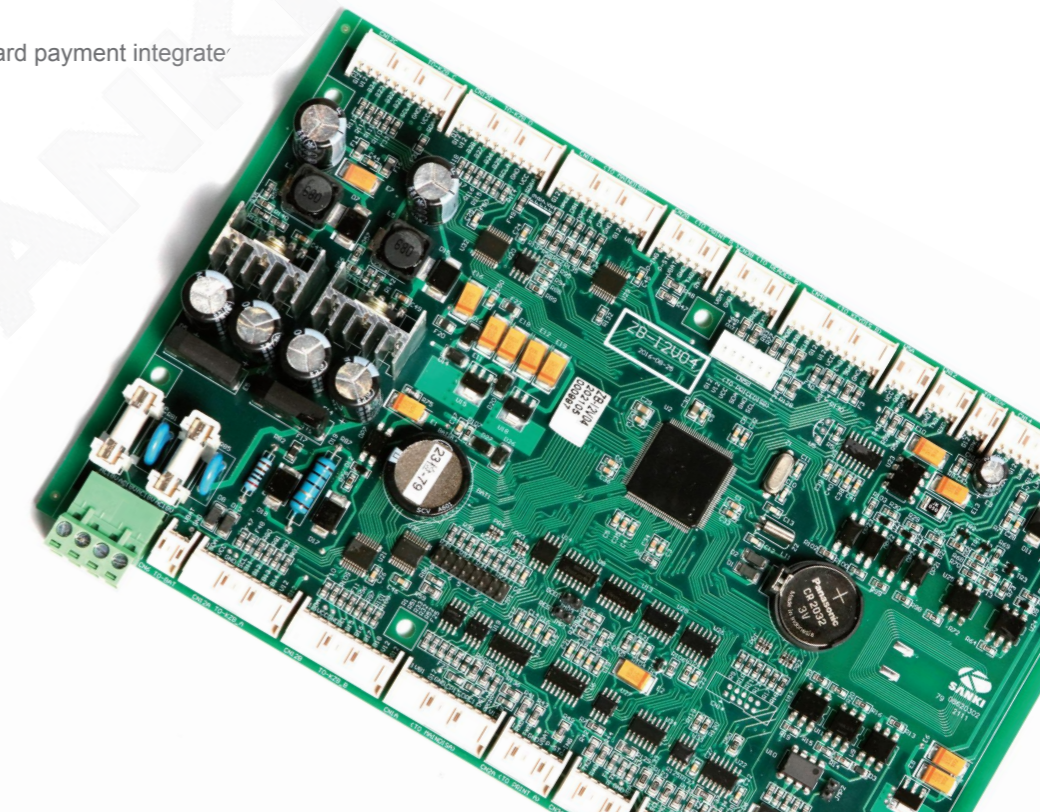

Flow Meter FM-500 Series

Features

- Top-Inlet and Bottom Outlet Design
- Minimized inside leakage
- Pistons with anti-wearing material
- High Accuracy
- 12 million liters accuracy and life cycle test
- OIML approval and qualified certificated
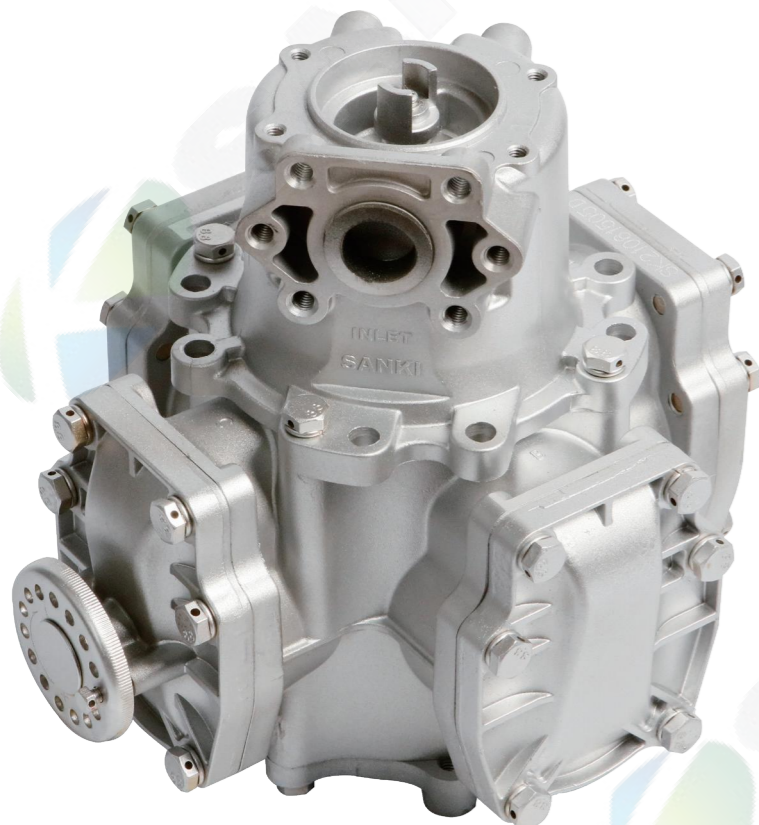

Features

- Depot tanker loading quantitative delivering system
- Unique modular design
- Explosion-proof connector far site installation
- Reliable venting and filtering system
- Intelligent measuring control system
- Anti-static and prevent overflow
